Collaborative, quick learner with a background in healthcare. Looking to apply detail-oriented problem solving skills to an entry level developer position that will support my continued growth as a software engineer.

TECHNICAL SKILLS

Spring Boot, Java, PostgreSQL, HTML, CSS, JavaScript, Vue.js, Responsive Web Design, IntelliJ, Git, Unit Testing (JUnit), E/R diagrams, Integration Testing

TECHNICAL EXPERIENCE

- **Chess Game** - Two-player chess application written in Java using Swing framework. Implemented GUI for piece selection and movement, highlighting legal moves, and undo functionality.
- **TENmo** - A CLI application similar to Venmo. Developed back-end and front-end concepts, including RESTful API implementation for sending/receiving money and transaction history management.
- **Vending Machine CLI** - A command line program that tracks product stock, current balance, and logs transactions to a file. Demonstrates fundamental OOP principles of encapsulation, polymorphism, and inheritance.

EDUCATION

Tech Elevator

May 2023 – Present

Currently attending a 14-week full-stack coding bootcamp learning how to create dynamic web-based software systems using Java providing 800+ hours of development education and application.

Front Range Community College, Fort Collins, CO

2018 – 2020

Earned credits towards an Associate of Applied Science in Nursing.

PROFESSIONAL EXPERIENCE

Coach House Tavern Cape Charles, VA

May 2023 – Present

Waiter

- Coordinated with banquet staff during an event with over 200 guests, resulting in the most successful event to date
- Providing high quality table service to over 50+ customers daily
- Effectively communicating customers' unique dietary needs and other special orders to kitchen staff

North Suburban Medical Center Thornton, CO

August 2021 – April 2023

Telemetry Technician

- Observed and evaluated up to 50 patient heart rhythms simultaneously, promptly reporting changes to registered nurses, and documented abnormalities in patient health charts
- Utilized an emergency escalation pathway to receive assistance on patients who were in need of immediate medical attention based on their telemetry readings
- Collaborated with nursing managers to introduce changes that lessened the stress and workload on front line staff resulting in less burnout and less time spent with patients being off of telemetry

Candlewood Suites Fort Collins, CO

July 2018 – July 2021

Front Desk Associate

- Aided 50 to 75 guests daily with making, changing, and canceling reservations
- Resolved guest complaints efficiently and timely, maintaining high guest satisfaction
- Managed turning over business days by logging cash & credit card transactions while maintaining strict organization

Mountain View Car Wash Steamboat Springs, CO

September 2016 – July 2018

Detailer & Part-time Manager

- Promoted to weekend manager due to dependability and strong leadership displayed during days of record breaking sales
- Interfaced with customers directly to ensure quality was met and oversaw the highest period of customer satisfaction in the company's history
- Led a team of 5 to 6 car washers, achieving a daily average of 150 cars washed, setting new company sales records
