Collaborative, quick learner with a background in healthcare. Looking to apply detail-oriented problem solving skills to an entry level developer position that will support my continued growth as a software engineer.

TECHNICAL SKILLS

Spring Boot, Java, PostgreSQL, HTML, CSS, JavaScript, Vue.js, Responsive Design, IntelliJ, Git, Unit Testing (JUnit), E/R diagrams, Integration Testing

TECHNICAL EXPERIENCE

- **Vending Machine CLI** - A command line program that tracks product stock, current balance, and logs transactions to a file. Demonstrates fundamental OOP principles of encapsulation, polymorphism, and inheritance.
- **TENmo** - A CLI application similar to Venmo that allows users to send and request money (and approve or reject requests from other users) as well as view the details of past transactions. Demonstrates basic front and back end concepts including creating, reading, updating, and deleting items from a database using a self-made RESTful API.

EDUCATION

Tech Elevator

May 2023 – Present

Currently attending a 14-week full-stack coding bootcamp learning how to create dynamic web-based software systems using Java providing 800+ hours of development education and application.

Front Range Community College, Fort Collins, CO

2018 – 2020

Earned credits towards an Associate of Applied Science in Nursing.

PROFESSIONAL EXPERIENCE

North Suburban Medical Center, Thornton, CO

August 2021 – April 2023

Telemetry Technician

- Observed and evaluated up to 50 patient heart rhythms at a time and reported changes to the registered nurses
- Measured 6 second rhythm strips once a shift, documented any measurements or characteristics of a patient's heart rhythm that were outside of normal ranges and logged these rhythm strips in the patient's health chart
- Utilized an emergency escalation pathway to receive assistance on patients who were in need of immediate medical assistance based off of their telemetry readings
- Collaborated with nursing managers to introduce changes that would lessen the stress and workload on front line staff resulting in less burnout and less time spent with patients being off of telemetry

Candlewood Suites, Fort Collins, CO

July 2018 – July 2021

Front Desk Associate

- Aided 50 to 75 guests daily with making, changing, and canceling reservations
- Resolved guest complaints in an efficient, timely manner
- Communicated with team members about guest complaints, compliments, and/or preferences to ensure quality service
- Managed turning over business days by logging cash & credit card transactions while maintaining strict organization

Mountain View Car Wash Steamboat Springs, CO

September 2016 - July 2018

Detailer & Part-time Manager

- Promoted to weekend manager due to dependability and strong leadership displayed during days of record breaking sales
- Interfaced with customers directly to ensure quality was met and personally oversaw the highest period of customer satisfaction the company had to date
- Led a team of 5 to 6 car washers through days averaging 150 cars washed breaking company records in sales as well as customer satisfaction
